STAGERIDER SCHNELLERTOLLERMEIER 2026

- The stage setup needs to be as indicated above.
- A drum riser (2x2m) is needed for big stages.
- 2 cases or boxes (approx. 70cm height) are needed to position the guitar & bass amplifiers.
- A chair without armrest is needed for the guitarist
- The PA and light systems should be well-adapted to the room and must be connected to separate electrical circuits.
- The band needs both an experienced sound and light engineer who are present for the whole event if not arranged differently beforehand.
- The stage rider's specifications are part of the contract.
- If there are any questions please contact:
